GENERAC®

LP SERIES PORTABLE GENERATORS

Portable Propane Backup Power

LP SERIES PORTABLE GENERATORS 3250 & 5500 WATTS

SMART FUEL. SMART START. SMART DESIGN.

Our LP series of portable generators combines all the convenience of safe, stable liquid propane with a breakthrough design that maximizes portability and ease of use. They are the only propane-fueled portable generators that provide an integrated tank holder, eliminating the need to lug heavy canisters of fuel. This innovation results in best-in-class mobility, so users with a range of abilities can maneuver their LP generator quickly and with a minimum of effort.

It's as easy to use as your outdoor propane grill, and it uses the same fuel, so it's ready when you need it.

Propane - The Smart Fuel.

CLEAN

RELIABLE

AVAILABLE

LP

Clean burning and essentially non-toxic. In the event of a leak, propane immediately vaporizes so there is no spillage.

Liquid propane does not degrade over time. Stabilizers are not needed, so tanks can be stored indefinitely. It's ready to go when you need it.

Gasoline may not be available during an emergency - pumps cannot function without electricity and scarcity can cause long lines at filling stations.

GAS

Fumes are hazardous and spills are flammable, especially when refueling a hot generator.

Degrades over time. Cannot be left in the generator for extended periods without the addition of stabilizer or carburetor damage will result.

Propane is readily available and often more accessible during an emergency. Bypass gas lines and go right to the LP tank exchange. No waiting!

Additional Features

- **Low Oil Shutdown** Cuts power to the engine to protect it from damage if oil runs low
- **Precision Balanced** For stability and effortless mobility
- **Circuit Breakers** Provide overload protection
- **Conveniently Located Fuel Line** Quickly connects to standard LP tanks
- **Hardened 1 ¼ " Steel Tube Cradle** For added durability and strength
- **Hour Meter** Automatically tracks maintenance intervals
- **Wide, Never-Go-Flat Wheels** For easy transport regardless of terrain

CONTROL PANEL

Includes multiple covered outlets

Provide added protection from the environment

LP5500

The Smart Choice for Portable Home Emergency Backup Power

- PowerDial™** Provides total control at the turn of a dial, with all startup and shutdown functions in one simple, easy-access control
- Quick-Access Enclosure**
For easy engine maintenance
- Folding/Nesting handle and Tank Holder**
For compact storage
- Powerful 389cc Generac OHV Engine and Heavy Duty Alternator**
Deliver 5500 running Watts and 6875 starting Watts to power essential circuits
- 30 Amp Outlet & Manual Transfer Switch**
Allows generator to be easily connected to a permanently installed manual transfer switch to power several circuits and hardwired appliances such as a furnace or sump pump.

Manual Transfer Switch

Power Inlet Box

Start Smart with Our Exclusive PowerDial
Eliminates searching for separate controls during an emergency.

No other portable generator features all essential startup functions on a single, easy-to-use dial, with step-by-step instructions. Prime, choke, start and shutdown are all centrally located making startup a snap.

LP3250

The Benefits of Portable Propane Power in a Smaller Footprint

Also providing the integrated tank holder and easy mobility, the LP3250 is an ideal choice for your smaller-scale backup needs.

Portable Generator Specifications

Series	LP3250	LP5500
Model Number	6000	6001
Running Watts	3250	5500
Starting Watts	3750	6875
Engine Size	212cc	389cc
Engine Type	Generac OHV	Generac OHV
Low-oil Level Shutdown	Yes	Yes
Starting Method	Recoil Pull Start	Power Dial with Recoil Pull Start
Covered Outlets	Yes	Yes
Outlets	(2) 120V 20A 5-20R Duplex (1) 120/240V 20A L14-20R Twist Lock	(2) 120v 20A 5-20R Duplex (1) 120/240V 30A L14-30R Twist Lock

HOME STANDBY GENERATORS

The Safe, Automatic Solution for Home Backup.

The power goes out and the generator goes on – whether you are home or away. It's that's simple. Install the #1 selling home standby generator from Generac and never again deal with extension cords or refuelling in a storm. Instead, enjoy safe, automatic home protection from the inconveniences and potentially dangerous effects of power outages. There's nothing like the peace of mind a Generac automatic home standby generator can give to you and your family.

AUTOMATIC 24/7 POWER PROTECTION

Portable power since 1959

Since the original portable that started it all in 1959, Generac has continued to engineer advances in standby power for more than fifty years. Generac's product range includes power solutions from portable and automatic home standby generators to backup systems for commercial and industrial applications, all backed by an extensive nationwide service network of certified dealers. Because of our ongoing commitment to quality and innovation, Generac is the name home and business owners have come to trust.

Portable Parts and Service

Generac portable generators are supported through an extensive nationwide service network that provides parts and technical support to homeowners and contractors. For a portable generator dealer near you, visit generac.com.
