

HOMELINK™

GENERAC®

6500E

Portable Generator + 30 Amp Upgradeable Manual Transfer Switch

Safely Power Hard-wired Appliances

HOMELINK™

6500E PORTABLE GENERATOR

The HomeLink™ 6500E portable generator from Generac makes an ideal choice for backing up the power to your home in the event of an outage. It's the only portable generator that's packaged with an upgradeable manual transfer switch.

Electric start means you can count on power when you need it. TruePower™ technology delivers less than 5% total harmonic distortion — for clean, smooth operation of sensitive electronics, tools and appliances such as your furnace, well pumps and lights. The HomeLink 6500E also features an upgradeable manual transfer switch, allowing you to step up to a Generac home standby generator in the future.

PORTABLE GENERATOR

UPGRADEABLE MANUAL TRANSFER SWITCH KIT

POWER SOURCE INDICATOR

lets you know whether you're running on utility or generator power

ROCKER SWITCH

electronically switches from utility to generator power with the simple push of a button

battery included, provides hassle-free start-up

PLUG-IN BATTERY CHARGER JACK

keeps battery charged and ready to go (Wall charger included)

120/240 HOMELINK OUTLET

connects to power hard-wired appliances

HOMELINK

PRE-WIRED 8-10 CIRCUIT
MANUAL TRANSFER SWITCH KIT

Generac's HomeLink Upgradeable Transfer Switch goes beyond what other manual transfer switches can do. It makes upgrading from a portable generator to automatic standby power simple and affordable.

HomeLink is a pre-wired electrical device that's installed next to your home's circuit panel. During an outage, it delivers power to hard-wired appliances (such as furnace, well pump and lights) with the push of a button, safely and easily – eliminating the need for multiple extension cords.

FROM MANUAL TO AUTOMATIC -
ESSENTIAL CIRCUIT COVERAGE

You've decided it's time to install an automatic standby generator. You're halfway there. A certified electrician will change out the panel located in the HomeLink with an automatic switch upgrade panel and new faceplate – and it's ready to be connected to a home standby generator.

A Generac home standby generator automatically backs up essential circuits with this pre-wired transfer switch. It comes standard with 8 circuits, expandable to 10 circuits.

HOME STANDBY GENERATORS

The Safe, Automatic Solution for Home Backup.

The power goes out and the generator goes on – whether you are home or away. It's that's simple. Install the #1 selling home standby generator from Generac and never again deal with extension cords or refueling in a storm. Instead, enjoy safe, automatic home protection from the inconveniences and potentially dangerous effects of power outages. There's nothing like the peace of mind a Generac automatic home standby generator can give to you and your family.

AUTOMATIC 24/7 POWER PROTECTION

Portable power since 1959

Since the original portable that started it all in 1959, Generac has continued to engineer advances in standby power for more than fifty years. Generac's product range includes power solutions from portable and automatic home standby generators to backup systems for commercial and industrial applications, all backed by an extensive nationwide service network of certified dealers. Because of our ongoing commitment to quality and innovation, Generac is the name home and business owners have come to trust.

Portable Parts and Service

Generac portable generators are supported through an extensive nationwide service network that provides parts and technical support to homeowners and contractors. For a portable generator dealer near you, visit generac.com.
